

Place Value Houses

Millions · Ten Thousands · Thousands · Hundreds

Name: _____ Date: _____

Each house is a place! Put one digit in each window. Read the number from the Millions house toward the Ones window.

Example number: 3,025,418

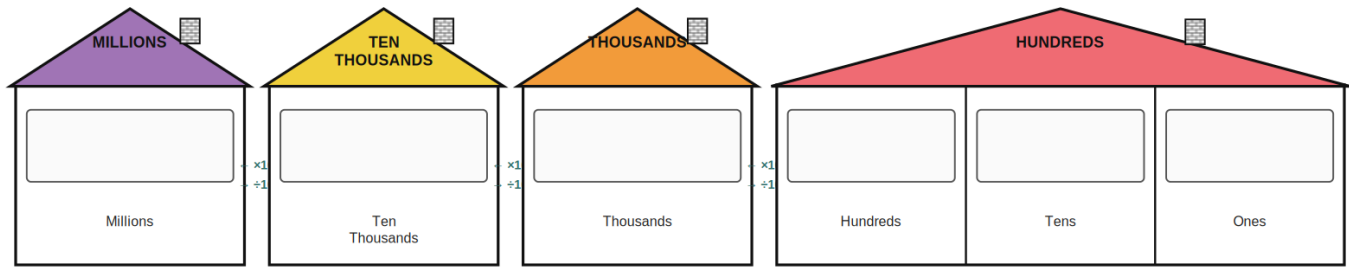

Your turn — build these numbers in the houses (write digits in order):

1. **4,000,000** → Millions: ____ Ten Thousands: ____ Thousands: ____ Hundreds: ____ Tens: ____ Ones: ____
2. **70,000** → M: ____ TTh: ____ Th: ____ H: ____ T: ____ O: ____
3. **5,208** → M: ____ TTh: ____ Th: ____ H: ____ T: ____ O: ____
4. **1,036,549** → M: ____ TTh: ____ Th: ____ H: ____ T: ____ O: ____
5. Make your own number and write it: _____

Place Value Houses · Grade 3

Find the place — Hundreds, Thousands, Ten Thousands, Millions

Name: _____ Date: _____

Place Value Houses · Millions → Ten Thousands → Thousands → Hundreds / Tens / Ones

A. Which house? Write *millions, ten thousands, thousands, hundreds, tens, or ones*.

1. In **6,000**, the 6 lives in the _____ house/place.
2. In **40,000**, the 4 lives in the _____ house/place.
3. In **2,000,000**, the 2 lives in the _____ house/place.
4. In **800**, the 8 lives in the _____ house/place.
5. In **1,050,000**, the 5 lives in the _____ house/place.
6. In **3,792**, the 9 lives in the _____ house/place.

B. Put digits in the houses (write the digit for each place).

Number	Millions	Ten Thousands	Thousands	Hundreds	Tens	Ones
382	_____	_____	_____	_____	_____	_____
7,041	_____	_____	_____	_____	_____	_____
50,600	_____	_____	_____	_____	_____	_____
1,204,090	_____	_____	_____	_____	_____	_____

C. Build a number

7. 3 in the millions house, 4 in the thousands house, 5 in the tens place. All other windows are 0.

Number: _____

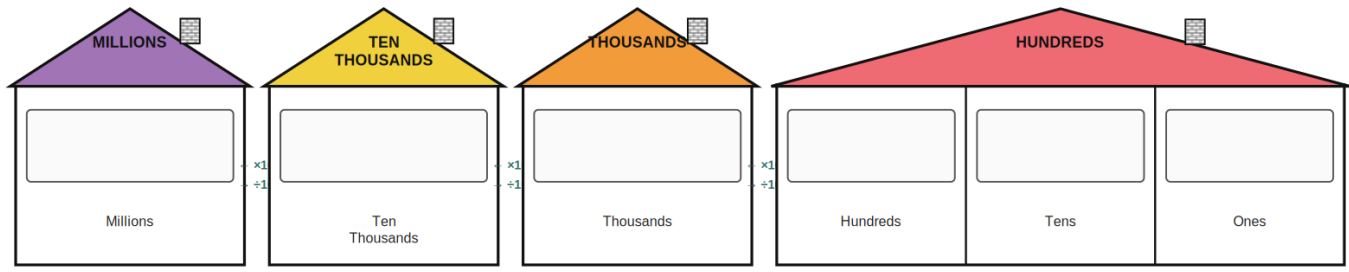

8. 6 in the ten-thousands house, 2 in the hundreds house, 9 in the ones. All other windows are 0.

Number: _____

Place Value Houses · Grade 4

Use the houses to find place, value, and $\times 10$ relationships

Name: _____ Date: _____

Place Value Houses · Millions → Ten Thousands → Thousands → Hundreds / Tens / Ones

A. Place and value — Name the house/place and the value of the digit.

- In **6,000,000**, the 6 is in the _____ house. Value: _____
- In **80,000**, the 8 is in the _____ house. Value: _____
- In **9,000**, the 9 is in the _____ house. Value: _____
- In **500**, the 5 is in the _____ house. Value: _____
- In **2,046,318**, the 4 is in the _____ house. Value: _____
- In **2,046,318**, the 3 is in the _____ place. Value: _____

B. Moving between houses ($\times 10$ / $\div 10$)

- A digit in the **thousands** house moves to the **ten thousands** house. Its value is multiplied by _____.
- A digit in the **millions** house moves to the **hundreds** house (same digit). How many times smaller is its value now?

- Complete: $7 \rightarrow 70 \rightarrow 700 \rightarrow 7,000 \rightarrow _____ \rightarrow _____ \rightarrow 7,000,000$

C. House puzzles

- Fill the houses to make **3,050,200**:
Millions ____ Ten Thousands ____ Thousands ____ Hundreds ____ Tens ____ Ones ____
- Which is greater: a 5 in the **ten thousands** house or a 5 in the **thousands** house? Explain.

- Write the number: 1 in millions, 6 in ten thousands, 4 in thousands, 0 in hundreds, 8 in tens, 2 in ones.

Answer Key · Place Value Houses

Chart practice + Grade 3 + Grade 4

Page 1 — Build numbers

1) 4, 0, 0, 0, 0, 0 2) 0, 7, 0, 0, 0, 0 3) 0, 0, 5, 2, 0, 8 4) 1, 3, 6, 5, 4, 9 5) answers vary

Grade 3

A: 1) thousands 2) ten thousands 3) millions 4) hundreds 5) ten thousands 6) tens

B: 382 → 0,0,0,3,8,2 | 7,041 → 0,0,7,0,4,1 | 50,600 → 0,5,0,6,0,0 | 1,204,090 → 1,0,4,0,9,0

C: 7) 3,004,050 8) 60,209

Grade 4

A: 1) millions; 6,000,000 2) ten thousands; 80,000 3) thousands; 9,000 4) hundreds; 500 5) ten thousands; 40,000 6) tens; 10

B: 7) 10 8) 10,000 times smaller 9) 70,000; 700,000

C: 10) 3, 5, 0, 2, 0, 0 11) ten thousands (50,000 > 5,000) 12) 1,064,082

Note for teachers: The four houses match Millions, Ten Thousands, Thousands, and the Hundreds house (with Tens and Ones windows). This keeps the street small while still covering ones through millions.
